

### Resato bending tool set

High pressure tubing bending toolset

### Specifications

#### Main features:

The bending tool set has been developed as a lightweight and portable bending tool. The set can be used at construction sites, on board from ships or workshops to bend high pressure tubing in an easy and accurate way.

Special rollers are added to suit high pressure tubing material toughness.

Tubing sizes :           : Ø 6 mm - Ø 1/4"  
                                  : Ø 10 mm - Ø 3/8"  
                                  : Ø 14 mm - Ø 9/16"

Dimension               : 640x180x100 mm

Weight                   : 14 kg

#### Ordering:

Ordering description : Bending tool set  
Ordering code        : 1051303

#### Resato high-pressure tubing:

Tubing size	Tubing type	Pressure (bar / psi)
Ø 6 mm	T1-60/22-42	4200 / 60.000
	T1-60/22-70	7000 / 100.000
Ø 1/4"	T1-64/24-42	4200 / 60.000
	T1-64/16-100	10.000 / 150.000
	T1-64/10-140	14.000 / 200.000
Ø 10 mm	T2-100/50-21	2100 / 30.000
	T2-100/50-42	4200 / 60.000
Ø 3/8"	T2-95/32-42	4200 / 60.000
	T2-95/32-70	10.000 / 150.000
	T2-95/16-120	14.000 / 200.000
Ø 14 mm	T3-140/80-21	2100 / 30.000
	T3-140/50-42	4200 / 60.000
Ø 9/16"	T3-143/80-21	2100 / 30.000
	T3-143/50-42	4200 / 60.000
	T3-143/80-42	4200 / 60.000

To maintain material specification integrity it is recommended that the minimum bending radius is at least 5 times the outer diameter of tubing type.
