

Resato coning and threading tools

High pressure coning and threading tools

Main features:

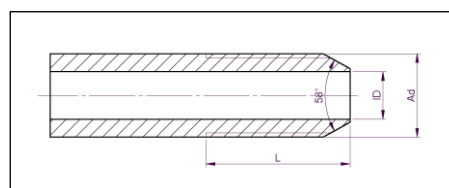

The coning and threading tool are developed as a straight forward tools to create a cone and threading at the end of high pressure tube. Both tools are hand operated, only a vice is needed. The tool can be used at constructions sites, on board from ships or workshop.

Specifications

Resato high-pressure tubing:			Coning tool		Threading tool	
Tubing size	Tubing type	Pressure (bar / psi)	Coning tool type	Ordering code [RPN]	Thread tool type	Ordering code [RPN]
Ø 6 mm	T1-60/22-42	4200 / 60.000	CT-22	1004986	TT-60	1005060
	T1-60/22-70	7000 / 100.000	CT-22	1004986
